THE FAMOUS CHILDREN'S BOOK CHARACTER "URSLI" COMES TO KUHN RIKON!

In August 2017, Kuhn Rikon took over the well-established "Rheinfelder Keramik" ceramics factory.

We're delighted and proud to be continuing business with the team in Rheinfelden, thus preserving a valuable craft and safeguarding the future of one of the last ceramics factories in Switzerland.

All products such as caquelons, plates, children's plates, bowls, mugs, cups and more are crafted lovingly by hand using top quality materials. Manual production and artistic painting by well-practised hands give the tableware its special, individual character.

Each item is unique. The unique tableware ranges are a feast for the eyes and delightful to the touch. Heirlooms, perhaps, to be preserved for the next generation?

Immerse yourself in our wide range of products, and follow the popular Swiss children's book character Ursli into the colourful world of the well-known Swiss artist Alois Carigiet!

HOME TIES

Alois Carigiet (born 30th August 1902 in Trun, Grisons; † 1st August 1985 in Trun) gained fame as a Swiss artist, lithograph and children's book author. His three best-known children's books are "A bell for Ursli", "Florina and the Wild Bird" and "The Snowstorm". In particular, his book "A bell for Ursli", with text by Selina Chönoz, brought him national fame in Switzerland. Alois Carigiet's love of the Engadine landscape infiltrates all of his pictures. These unique Carigiet paintings have been copied onto Rheinfelder ceramic products. The manual production and artistic painting by well-practised hands give each unique item its special, individual character.

URSLI DISHES UP LOVELY STORIES

Using the design of a classic bread plate as their starting point, our Rheinfelder ceramics experts have created a highly versatile bowl design. This can be used in a wide range of ways, introducing joy and cheer into everyday kitchen routines. The hand-painted bowls are perfect for serving soup, salad, fruit, meat, pastries, rice, vegetables, biscuits ... or even bread. Whatever you choose to use them for, they're real eye-catchers, and each pattern has a special charm of its own.
