RHEINFELDER KERAMIK

HOURS OF ENTERTAINING WITH UNIQUE CERAMICS

In August 2017, Kuhn Rikon took over the traditional Rheinfelder Keramik. Since then, we have continued to successfully operate one of the last ceramics factories in Switzerland together with our team of skilled ceramic artists.

Each manufacturing step involves a high level of craftsmanship and skill, and each product is testimony to the dedication of its creator. Moreover, each item has its own unique character – because each one is made by hand and lovingly handpainted.

The traditional story from the Swiss canton of Graubünden, A Bell for Ursli, was published in 1945 and is one of the best-known picture books in Switzerland. Travel through the Engadine Valley today and you will still see echoes of this famous book even after more than 75 years.

Our products breathe new life into the popular story. This unique line of charming tableware presents the characters and scenes from the story in loving, hand-painted detail, providing perfect examples of expert Swiss workmanship.

Immerse yourself in our colourful, durable, top-quality ceramics collection!

Each piece is one of a kind.

A SWISS LEGEND

Alois Carigiet (born 30 August 1902 in Trun, Graubünden; † 1 August 1985 in Trun) was a Swiss graphic designer, painter, illustrator, lithographer and author of children's books. He is perhaps best known for three children's picture books set in the Alps, A Bell for Ursli, The Snowstorm, and Florina and the Wild Bird. His most popular book, A Bell for Ursli, with words by Selina Chönz, led to national fame. References to the nature and landscape of Engadine are omnipresent in Alois Carigiet's illustrations. The unique Carigiet paintings are lovingly reproduced in the Rheinfelder Keramik products. Made and painted by hand, each piece of this unique line is one of a kind.
